THE CHARLESTON MAYORALTY. What the People are Doing and How the

The municipal campaign has already opened in Charleston. Three candidates are mentioned prominently thus far, Capt. W. A. Courtenay, Mayor W. W. Sale and Col. W. J. Gayer. The friends of the first named gentleman opened the ball by organizing a Courtenay Campaign Club, with Mr. J. W. Barnwell as president, and a number of vice-presidents and other officers embracing some of the best men of all clases in the city. The adherents of Col. Gayer also held ameeting a few evenings ago to organize in his behalf. Colonel Gayer made an address, in the course of which he

"I am nominated here to-night as the people's Democratic candidate, to be run within, and not without, the Democratic fold. Now whilst I intend to submit myself to all the reasonso-called conventional nominations as we have known them, primaries even as they are generally managed, for the one simple yet good reason, that they are never and will never be a free expression of public opinion nor of the best interests and wants of the people. There is a wise and right course to pursue even in the most trying exigen-Let us discover that and adopt it. I am, in other words, much in favor, as I believe are all the majority of my fellow citizens, of the old time way of nominating men for office-name your candidates and elect them in a fair and bonest way. I am, gentlemen, strictly of the Hampton school of polities. It is not a whit too pro-nounced in its doctrines for me, and its platform is wise, broad and liberal enough for us all to accept. I hold that every citizen can come together under that platform, and there are no issues which need separate us at this time or disturb us as a community. No man is apt to be nominated by any portion of the Democrats of Charles ton who is not or may not be known to the people, and whose fitness and capacity for the responsible position of Mayor may not be fully canvassed before the election rolls around.

For my own part I prefer an open nomination by the people; in other words, to be nominated as I am tonight, by Democrats of Charleston, as a Democrat, and in this way to obtain in broad daylight, without connivance, bargains, pleds o oroth r vise, all votes Democratic or Republican, that will trustingly come to me upon the ground that they believe that I will make a good Mayor for the City of Charleston, fair to each and all alike, of her interests and her people."

Among the other speakers present was Mr. T. Barker Jones, Chairman of the City Democratic Executive Committee, who was reported as pledging himself to do all in his power to secure Colonel Gayer's election. In a card the next day Mr. Jones denied pledging himself, or expressing a preference for any one. His card con-

cludes as follows: "Arriving at the meeting late, I did not hear the speech of Colonel Gayer, and, therefore, did not know at that time—as I know now—the platform upon which he intended to conduct the campaign.

I cannot, and will not, support any candidate not nominated by the Democratic party, either at a convention or a primary of the Democratic party, (one of which plans of making nominations will be determined by the voice of the party at a primary to be called by the Democratic Executive Committee later on.)
